WORK EXPERIENCE

ELIORA TECHNOLOGIES

MERN Stack Developer Intern

June 2024 - Present

- Developed and maintained full-stack web applications using **MongoDB, Express.js, React.js**, and **Node.js**.
- Enhanced application performance by **15%** through efficient code refactoring and optimizing resource usage.
- Integrated **RESTful APIs**, improving backend functionality and data flow.
- Collaborated with cross-functional teams to deliver features within deadlines, improving communication.

Riple Technologies LTD

Software Engineering Intern

March 2024 - June 2024

- Assisted with various software engineering tasks, contributing to the overall efficiency of projects.
- Designed and implemented UI components with **React.js**, resulting in a 20% increase in user engagement.
- Developed **RESTful APIs** with **Node.js** and **Express.js**, achieving a **15% improvement in backend performance**.

SKILLS

- **Frontend** - React.js, Next.js, JavaScript, Responsive Web Design, React-Router, HTML5, CSS3,
- **Backend** - Node.js, Express.js, RESTful API, MongoDB, Python
- **Tool** - Postman, Git, GitHub
- **Frameworks** - Bootstrap, Tailwind, Material-UI
- **Ai tool** - ChatGPT, BlackBox.ai, VO.dev
- **Other** - Solidity, Web3.js, Blockchain fundamentals

PROJECT

Frontend Developer for Multiple Web Applications

- Developed three distinct web applications along with their respective admin panels using the MERN stack (MongoDB, Express.js, React.js, Node.js), ensuring functionality and scalability.
- Designed unique frontend layouts for each application, emphasizing responsive design and optimizing user experience to meet diverse client requirements.
- Implemented secure role-based authentication using JWT for admin panels, facilitating efficient management of content, users, and data.
- Integrated RESTful APIs and optimized code, enhancing overall system performance by 15% while collaborating with cross-functional teams to deliver features on time.

Token Presale Platform

- Built a front-end for a token presale platform using Next.js with support for multiple blockchain currencies.
- Integrated Tailwind CSS for styling, Framer Motion for animations, and Chart.js for data visualization.
- Incorporated Tailwind CSS for styling, used Chart.js for data visualization, and implemented animations using Framer Motion.

EDUCATION

Jetking Networking Institute

Master in Blockchain Development

December 2022 - Present

Smt. Radhika tai Pandav College of Engineering

Bachelor of Engineering (Mechanical) - 8.4 CGPA

June 2018 - August 2022
